### THE COURTS.

IN CONTROVERSY OVER A LEASE.

ascertain if she was guilty of infidelity. Mrs. Smith is the daughter of a former landed proprictor in Ireland, and she cloped with Smith, who was her father's coachman, to America. They have been keeping a liquor shop in the eastern section of Newark and the present suit has been pending in the courts for nearly two years. Recently the wife procured the arrest of one Henry Lammerson on a charge of conspiracy in decoying her to a hotel in Irvington with the promise of furnishing her with information that would be of value to her in her case against her hasband, Lammerson's purpose being to compromise her in the interest of her husband.

### BALLOU & CO.'S PROPERTY ATTACHED.

Justice Potter, in the Supreme Court, Champers, yesterday granted a writ of attachment against the property of George William Ballou & Company, in a suit brought by Peters & Pell against the firm to recover \$800. The ground for granting the attachment is that the defendants are non-residents. The suit is brought on a check drawn by the firm which was dishonored upon presentment. It is charged on information and belief that the defendants knew that they were insol-vent when they draw the check, and that they had no funds in bank with which to meet it.

## THE CHICAGO MARKET STRONGER.

RENEWED CONFIDENCE-AN ADVANCE IN THE PRICE OF WHEAT AND CORN.

(BY TELEGRAPH TO THE TRIBUNE.)

CHICAGO, Aug. 15.—Rufus Hatch is said to have recently said to Kent: "Sid, sell out your wheat and 'bear' it until you get it where you will have some help in 'bulling' it." "sid" Kent sold his wheat, every body believes, and lo and behold ! the price immediately begins to advance a little. It is an illustration of the feeling in this market against the big manipulators. A. long as Kent neld his wheat nobody would help him "bull" it. New that he has dropped it, or that the crowd believes that he has dropped it, there has been an increase in the number of buyers.

The grain market advanced to-day upon the news from New-York and abroad. With the exception of the

although it quivered with excitement. At the pening of the market there was an instant's pause which was followed immediately by a sharp advance. The Villard shares, which have led the recent decline, were equally prominent in the reaction. Oregon and Transcontinental rose from 60 to 6514 and the Northern Pacific shares followed obediently. At the same time Lackawanna, which was first in point of activity, advanced 2 per cent to 1225s, and Erie, after the opening at 2912, touched 32. Western Union, yielding at once to 7219, rallied to 7478. There was a partial renewal of confidence, indeed, but the exceptional weakness of Western Union in the subsequent dealings had much to do with disturbing it again. The price of this stock fell to 725g, a lower point than it reached yesterday, in spite of an advance in the rest of the list. Of all the active stocks Western Union alone closed lower than it did last night. With the exception of Western Union, which suffered a material loss, the whole market closed at an advance of from 1 to 2 per cent, but not at the highest points for the day. The failure of E. C. Stedman & Co., which was announced in the early afternoon, was recognized at once as a merely private sorrow; the senior partner is sure of the sympathy of the Board in his afflic-

Government bonds were duil, but strong at an advance of 1s each for the 412s and 3s. The closing bids were as follows:

U.S. 4-1891, reg. 1117, 112 U.S. 64-1891, 129 U.S. 4-1891, reg. 1137, 113 U.S. 64-1891, reg. 1187, 110 U.S. 64-1897, 130 ...... U.S. 64-1897, reg. 1187, 110 U.S. 64-1897, reg. 1187, 110 U.S. 64-1897, reg. 1187, 110 U.S. 64-1897, reg. 1187, There was no inquiry for State bonds or city bank

stocks. Railroad bonds were dull but strong and in some instances materially higher. New-York, West Shore and Buffalo firsts were only moderately active and, opening lower, they closed only 's better at 733g. There was greater activity in the Texas Pacific issues and land grant incomes gained 12 at 53 while firsts. Rio Grande Division, closed unchanged at 741g after frequent fluctuations between 7312 and 75. Missouri, Kansas and Texas seconds rose from 50 to 5112 and general mortgages from 7514 to 76. Chesapeake and Ohio currency 6s opened 12 lower at 43, but by rapid leaps reached 45. Canada Southern firsts were & higher at 95. Iron Mountain fives were not active but they jumped from 66 to 70. Richmond and Danville debentures

advanced more slowly from 60 to 64. Oregon and Transcontinental 6s, in sympathy with the advance in the kindred shares, rose from 90 to 9212. Union Pacific firsts were duil, but they recovered from 109 to 11212, closing at the highest point for the day.

Fort Worth and Denver City firsts at the opening
were 2 per cent lower at 65, but they quickly rallied to 6712, a single bond fetching 6734. East Tennessee, Virginia and Georgia 5s sold in a small way at 72, against 77% at last previous sale. Among other issues which scored losses, Chicago, Burlington and Quincy debeuture 5s were unusually active at 90, a decline of 334 per cent. Some of the St. Paul divisional issues were a fraction lower. Atlantie and Pacific incomes advanced to 24, but closed

only 12 higher at 2312. The Sub-Treasury gained on balance to-day \$1,723,699, made up of gains in currency of

\$1,723,639, made up of gains in currency of \$955,945 and in coin of \$767,754. Included in the gains was \$580,000 issued in gold certificates. The day's transactions covered: Receipus, \$2,540,553; payments, \$817,304; currency balance, \$7,742,510; coin balance, \$119,538,836. Money ruled at 4 per cent, with exceptional loans at 5 and at the close at 2½ per cent.

The Clearing House statement to-day was as follows: Exchanges, \$163,484,157; balances, \$6,636,778.

The United States Treasury at Washington to-day received \$273,000 national bank notes for redemption. The customs receipts were \$728,047, and the internal revenue receipts \$339,127.

The market for foreign exchanges was dull and heavy, affected evidently by large offerings of borrowed bills. We revise quotations for business as follows; Bankers' bills, \$4.82 and \$4.86 for long and short respectively; 5,234 and 5,205; for frances; 944s and 94% for reichmarks; 395s and 397s for guitiders.

In London, British consols further declined 1-16

and short respectively; 5.23½ and 5.20% for francs; 94½ and 94½ for reichmarks; 39% and 39% for guiders.

In London, British consols further declined 1-16 to 99 15-16 for delivery, and ½ to 100 1-16 for account. Among United States bonds the 4½ were unchanged, but the 45 were quoted at 121,2120% ex interest. As these bonds should not be ex interest for a month, the latter quotation is undonotedly an error. American railways opened higher and to the close of business stendily advanced. The improvement was most marked in New-York Central, which rose 2 per cent to 118%, and in 8x. Paul, which rose from 101¼ yesterday to 103%. Atlantic and Great Western firsts advanced from 40½ to 43. Central Pacific was not much dealt in, and alone closed I per cent lower. In general the market was strong, closing at the highest points for the day. The contrast with the reported demoralization in prices yesterday was remarkably sharp. The Bank of England gained £70,900 on balance to-day. At Paris the Bourse was closed on account of the day being a soliday.

Coupons of the Pend d'Oreille division bends of the Northern Pacific Railroad Company, due September I, will be paid on presentation at the office of the company on that date.

The following securities were sold to-day at the Exchange Salestoom:

26 states National Fire Insurance Company

and is a good 'poor man's country.' The bullion out of the different cases at present amounts to about \$500,000 per mouth, and hence a 'boom' is expected for this section by the coming winter. There are six smelters, of thirty to forty tons capacity each; four of these are now running and the other two will be ready to ran in a few days. The general average of the ore is about \$100 in silver per ton and 75 per cent lead, and the ore is free-smelting. These smelters are owned by the Philadelphia Smelting Company, which invested in this country about \$1,000,000 before realizing a cent. The company is now in a fair way to make a good deal of money. It also owns several promising mines, and his buying wherever it can find anything that is good.'

Standard Consolidated official report for week ending August 4 shows: Ore extracted and shipped to mills, 1,234 tons; bullion shipped, \$13,636 90. East crosscut, 1,200 level, is 457 feet long. North drift No. 1, 1,000 level, is 268 feet long and the vein is 5 feet wide and looks well. Upraise No. 1 from this drift is up 120 feet, where the vein is 4 feet wide. West crosscut from north drift, 700 level, is in 710 feet; vein 4 feet wide. North drift from west crosscut from north drift, No. 2 is 355 feet, is in 710 feet; vein 4 feet wide. change in stopes.

Bodie Censolidated official report for week ending August 3 shows: Ore crushed, 150 1-3 tone; average assay value of pulp, \$21 24 per ton; of tailings. \$3 88. West crosscut, 1,000 level, is 518 feet long, and east crosscut, same level, is 415 feet long. West crosscut from north drift, 1,000 level, is in 34 feet. South drift from bottom of winze No. 5 is 43 feet long. feet long.

### THE PETROLEUM MARKET. NEW-YORK, Aug. 15.

More frequent fluctuations in the petroleum market to-day caused a larger amount of trading than on yesterday. Yet there was no news from the oil fields that was important. An opening at \$1 09%, against \$1 10% last night, started a seling movement which carried prices down to \$1 09. At this point resistance was met and the covering of "ahorts" carried prices to \$1 113s. Later there were fluctuations between \$1 102s and \$1 11%, but in the last half hour a vigorous drive was made at the market with the result of carrying it down to \$1.094@\$1.095g. Taking figures as a standard, the market closed weak.

The range of prices and the total dealings to-day were as follows:
